HEALTH SPACE

Quality of life!

Iberflora presents a new area dedicated to enhance the **health sector** within the garden channel.

Our main objective is to contribute to the **normalization** in Spain of medicinal plants and their derivatives, as well as the products to obtain them, opening new sales channels different to their traditional channels, as already happens in other countries such as France, Germany, Switzerland, Netherlands...

In **HEALTH SPACE** will be represented:

- ◆ **Phytotherapy:** products derived from health-oriented plants.
- ◆ **Medicinal Cannabis:** products for obtaining and processing hemp.
- ◆ **Healthy Eating:** food supplements based on plants.
- ◆ **Plants:** aromatic and healing plants.

In parallel with the presence of the main companies in the sector, Health Space will also feature a **CYCLE OF CONFERENCES** aimed to inform to the garden channel, shops and "Bio" stores about the inclusion of this sector in their centers.
